

June 10, 2011

We have a wonderful announcement....

We have included a new pediatric dentist in our practice.

The addition of Amy Varble, D.M.D. to our practice means we will improve our ability to accommodate our patient's calendars and commitments because we will have more flexibility in scheduling appointments. Pediatric oral care will always be a partnership between parents and dentists. Dr. Varble will enhance that alliance.

In addition to a great personality, her technical skills and education are exceptional.

A native of Jerseyville, IL, she earned a Bachelor of Science in Biology in 2001. From Southern Illinois University School of Dental Medicine she received her Doctorate of Dental Medicine in 2005. Following completion of Dental School, Dr. Varble practiced general dentistry in the St. Louis area for 4 years before specializing in pediatric dentistry. Dr. Varble completed her pediatric specialty training at the University of Louisville and Kosair Children's Hospital.

Dr. Varble and her husband, Dr. Zachary Varble, began calling St. Louis home while Dr. Zachary Varble was completing his orthodontic training at St. Louis University in 2006. Drs. Amy and Zachary have two children, Calvin and Frances and a yellow Lab, Annie. She enjoys reading, cooking, running, and spending time with her family.

We are looking forward to introducing you and your children to Dr. Varble. We are confident that you will value her skill and your children will enjoy her kindhearted approach to pediatric dental care.

Sincerely,

Steven Levitt, D.D.S

Murray H. Appelbaum, D.M.D.

Andrew J. Dill D.M.D.
